SKILLS

- Programming Languages: JavaScript, Python, Java
- Frontend Technologies: HTML5, CSS3, Sass, JavaScript, React.js, Vue.js, Bootstrap, Tailwind CSS
- Backend Technologies: Node.js, Express.js, Django, Flask
- Databases: MongoDB, MySQL, PostgreSQL
- API Development: RESTful APIs, GraphQL
- State Management: Redux
- Object-Oriented Programming (OOP)
- Design Patterns: MVC, MVVM
- Agile Methodology: Scrum, Kanban
- Continuous Integration/Continuous Deployment (CI/CD)
- Version Control: Git, GitHub
- Testing: Unit Testing, Integration Testing
- DevOps: Linux, Docker, Kubernetes

EDUCATION

Al-Razi University

Completed in 2023

Bachelor of science, Major in Computer science.

PROFILE

Dynamic Full Stack Developer passionate about crafting innovative and scalable web solutions. Demonstrated expertise in frontend and backend development, consistently delivering exceptional user experiences. Adept at leveraging diverse programming languages, frameworks, and tools to drive project success through continuous improvement and innovation.

WORK EXPERIENCE

Full Stack Developer

CSO Team

2023 - Present

- Successfully developed and managed over 5 websites entirely using the MERN stack.
- Spearheaded the design and execution of RESTful APIs with Node.js and Express.js, guaranteeing seamless communication between frontend and backend elements.
- Created user-friendly and responsive interfaces with HTML5, CSS3, and popular JavaScript frameworks like React.js and Vue.js, enhancing user experiences significantly.
- Developed a web application using GCP, NodeJS, MongoDB, React/Redux, and Azure Blob Storage to provide real-time data to over 5K customers.

Entry-Level Software Developer

Data Stream

June 2023 - August 2023

- Assisted in the development and enhancement of web applications, contributing to both frontend and backend development tasks.
- Designed and implemented frontend user interfaces using HTML5, CSS3, and JavaScript, following best practices for responsive design and accessibility.
- Worked on backend services and API development using Node.js, Express.js, and Django, supporting various application features and functionalities.
- Participated in code reviews and collaborated with team members to identify and address technical challenges, ensuring the successful delivery of project milestones.

PROFESSIONAL CERTIFICATES

- IBM Full Stack Software Developer by IBM on Coursera. Certificate earned at August 14, 2023
 - [Certificate details\(here\)](#).
- Google Cybersecurity by Google on Coursera. Certificate earned at July 19, 2023
 - [Certificate details\(here\)](#).
- Applied Software Engineering Fundamentals by IBM on Coursera. Certificate earned at August 20, 2023
 - [Certificate details\(here\)](#).
- [All my badges in Credly website \(here\)](#).
